## **DETAILED ACTION**

### ***Response to Remark/Amendment***

1. This communication is considered fully responsive to the Amendment filed on 12/18/2006.
  - a. Rejections to claims 21-40 is not withdrawn since the amended claims are not considered as "practical application".
  - b. An objection to the specification is withdrawn since it is being amended accordingly.

### ***Claim Objections***

2. Claims 38 and 40 are objected to because of the following informalities: Language, such as "adapted to" that suggests or makes optional but does not require steps to be performed or does not limit a claim to a particular structure does not limit the scope of a claim or claim limitation. See MPEP 2111.04.

The Examiner suggests deleting the terms "adapted to" to put claims 38 and 40 in a better form.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. Claims 21-50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not

described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

- a. In claims 21, 32, 38, 40, 48, and 50, the providing step is not supported by the original disclosure.

5. Claims 38-47 are rejected under 35 U.S.C. 112, first paragraph, as failing to enable any person skilled in the art to make and use the invention because a single means claim, i.e., where a means recitation does not appear in combination with another recited element of means, is subject to an undue breadth rejection under 35 U.S.C. 112, first paragraph. *In re Hyatt*, 708 F.2d 712, 714-715, 218 USPQ 195, 197 (Fed. Cir. 1983). See MPEP 2164.08(a).

#### ***Claim Rejections - 35 USC § 101***

6. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

7. Claims 21-50 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 21, 32, 38, 40, 48, and 50 are methods, [an apparatus, and a computer-readable medium] claims that do nothing more than providing a path between nodes in a packet network. The generating, modifying, determining, and providing steps lack a practical application that produces useful, concrete and tangible results. The determining and providing steps are not considered as "practical application". For example, it is required to have a final practical step in the claims such as transmitting a packet based

on the determined path. For more information, consult pages 18-23 of the guidelines available at

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
